

Vector Frame Kit 18

VF-K-18

The innovative, contemporary and clean appearance of the Vector Frame™ line of exhibit kits will captivate your audience. Kits feature push-fit fabric graphics, easy-to-assemble extrusion frames, accent lighting, tables, counters, literature accessories, monitor mounts and interior LED edge lighting where indicated.

features and benefits:

- 50mm silver extrusion frame
- Single-sided SEG dye-sublimated push-fit fabric graphics
- Includes two center literature pockets
- Kit includes frame, five fabric graphic panels, four 120 watt lights, two center literature pockets and two wheeled molded cases
- Lifetime hardware warranty against manufacturer defects

dimensions:

Hardware	Graphic
<p>Assembled unit: 225" w x 102" h x 28.125" d 5715mm(w) x 2590.8mm(h) x 714.375mm(d)</p>	<p>Total visual area: Panel A: 28" w x 94.5" h 711mm(w) x 2400mm(h)</p> <p>Panel B: 98.0625" w x 94.5" h 2491mm(w) x 2400mm(h)</p> <p>Panel C: 10.25" w x 94.5" h 260mm(w) x 2400mm(h)</p>

PMFC2-90-CAP	x8	PMFC2 90 DEGREE EXTRUSION CAP
LN112	x2	A4 UNIVERSAL LITERATURE HOLDER
STS-1	x8	SLIM TRUSS SPACER
CKSO	x2	1" x 1" STANDOFF

VF-K-18

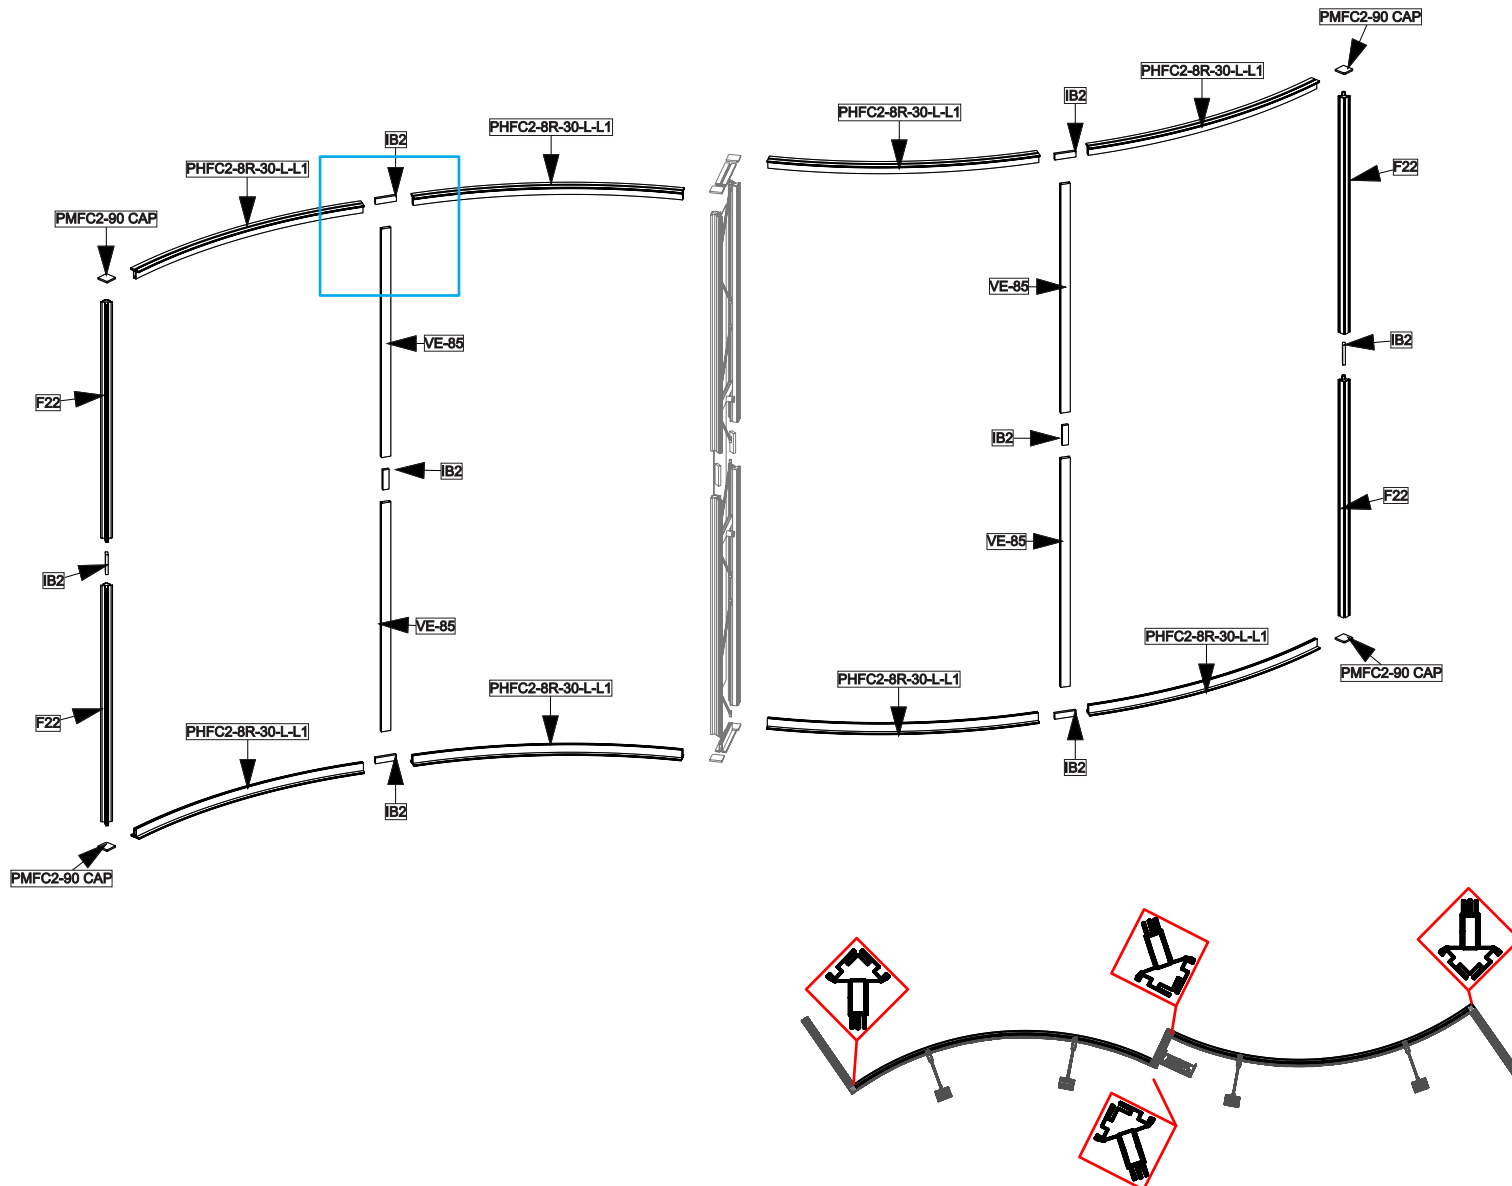

Step 1: Assemble Truss Section

Arrange pieces on the floor as shown in the diagram below. When locking be sure to turn each cam a little bit and then go back and tighten to the proper tension. Take care to turn locks only half a turn. Slide the IB2 into the extrusion to connect sides. Tighten to the proper tension to lock extrusions together.

Step 2: Assemble Center Sections

Arrange pieces on the floor as shown in the diagram below. Assemble frame by securing F22, VE-85 and PHFC2-8R-30-L-L1 to F22s. When locking be sure to turn each cam a little bit and then go back and tighten to the proper tension. Take care to turn locks only half a turn. Slide the IB2 into the extrusion to connect sides. Tighten to the proper tension to lock extrusions together. When connecting center sections to truss section, CKSO on truss section should face front, so literature racks will be in front of VF-K-18-D-G.

Step 3: Apply Graphics

Install graphic(s) by pressing the FCE-2 edge of graphic into the channel of the extrusion. Start in upper left corner and insert in remaining corners, then push graphic into each side. Assure graphic is tightly inserted. When taking graphics off, take care to gently pull by attached pull tab.

FCE-2 TO PHFC2

FCE-2 TO PHFC2

Install graphic by pressing the FCE-2 into the channels of PHFC2 extrusion. To pull graphics out of the channels, use tabs on the front side

Step 4: Assemble Left and Right End Sections

Arrange pieces on the floor as shown in the diagram below. Assemble frame by securing CB9-R on the top and CB9-S on the bottom to F40 and F34s. When locking be sure to turn each cam a little bit and then go back and tighten to the proper tension. Take care to turn locks only half a turn. Slide the IB2 into the extrusion to connect sides. Tighten to the proper tension to lock extrusions together.

Step 5: Apply Graphics

Install graphic(s) by pressing the FCE-2 edge of graphic into the channel of the extrusion. Start in upper left corner and insert in remaining corners, then push graphic into each side. Assure graphic is tightly inserted. When taking graphics off, take care to gently pull by attached pull tab.

Install graphic by pressing the FCE-2 into the channels of PHFC2 extrusion. To pull graphics out of the channels, use tabs on the front side

Step 6: Install Literature Racks & Install Lights

To install literature rack, secure LN112 with CKSO cap onto CKSO barrel. Repeat for second literature rack. Slide light clip onto each light. Then slide light into the extrusion channel at an angle and gently lower down and repeat for each light.
