

Vector Frame Kit 06

VF-K-06

Stand apart from the competition with a clean, sophisticated 10' x 10' or 10' x 20' Vector Frame™ exhibit kit. These graphic mural kits feature square-corner 50mm extrusion frames and push-fit fabric graphics that cover the entire frame. Vector Frame Essential kits are easy to assemble and disassemble.

features and benefits:

- 50mm silver extrusion frame
- Single-sided SEG dye-sublimated fabric graphics
- Easy step-by-step instructions
- Kit includes frame, nine fabric graphics, five 120 watt floodlights, and two wheeled molded cases
- Lifetime hardware warranty against manufacturer defects

dimensions:

Assembled view

Step 1: Assemble Frame

Arrange pieces on the floor as shown in the diagram below. Assemble frame by securing CB9-S to the F22, F34, F36, F40 and F43s. When locking be sure to turn each cam a little bit and then go back and tighten to the proper tension. Take care to turn locks only half a turn. Slide the IB2 into the extrusion to connect sides. Tighten to the proper tension to lock extrusions together.

Step 2: Apply Side Panel Graphics

Install graphic(s) by pressing the FCE-2 edge of graphic into the channel of the extrusion. Start in upper left corner, go across the top and then down the sides to the bottom. Assure each graphic is tightly inserted. When taking graphics off, take care to gently pull by attached pull tab.

Step 3: Apply Front Panel Graphics

Install graphic(s) by pressing the FCE-2 edge of graphic into the channel of the extrusion. Start in upper left corner, go across the top and then down the sides to the bottom. Assure each graphic is tightly inserted. When taking graphics off, take care to gently pull by attached pull tab.

Step 4: Attach Lights

Slide light clip onto each light. Then slide light into the extrusion channel at an angle and gently lower down and repeat for each light.
